60	1.671	2.000	2.660	3.460
120	1.658	1.980	2.617	3.373
∞	1.645	1.960	2.576	3.291

for a  
deg of  
freedom  
of 8,  
assume 0.05,  
 $t_{crit} = 2.306$ .  
For a signif.  
difference,  
 $t_{calc} > 2.306$
