

Figure 1. Box plots of the diurnal character of formaldehyde (ppbv) at Marine, 28th, and Auraria for the February 1996 sampling period. See Results section of text for explanation of box plots.

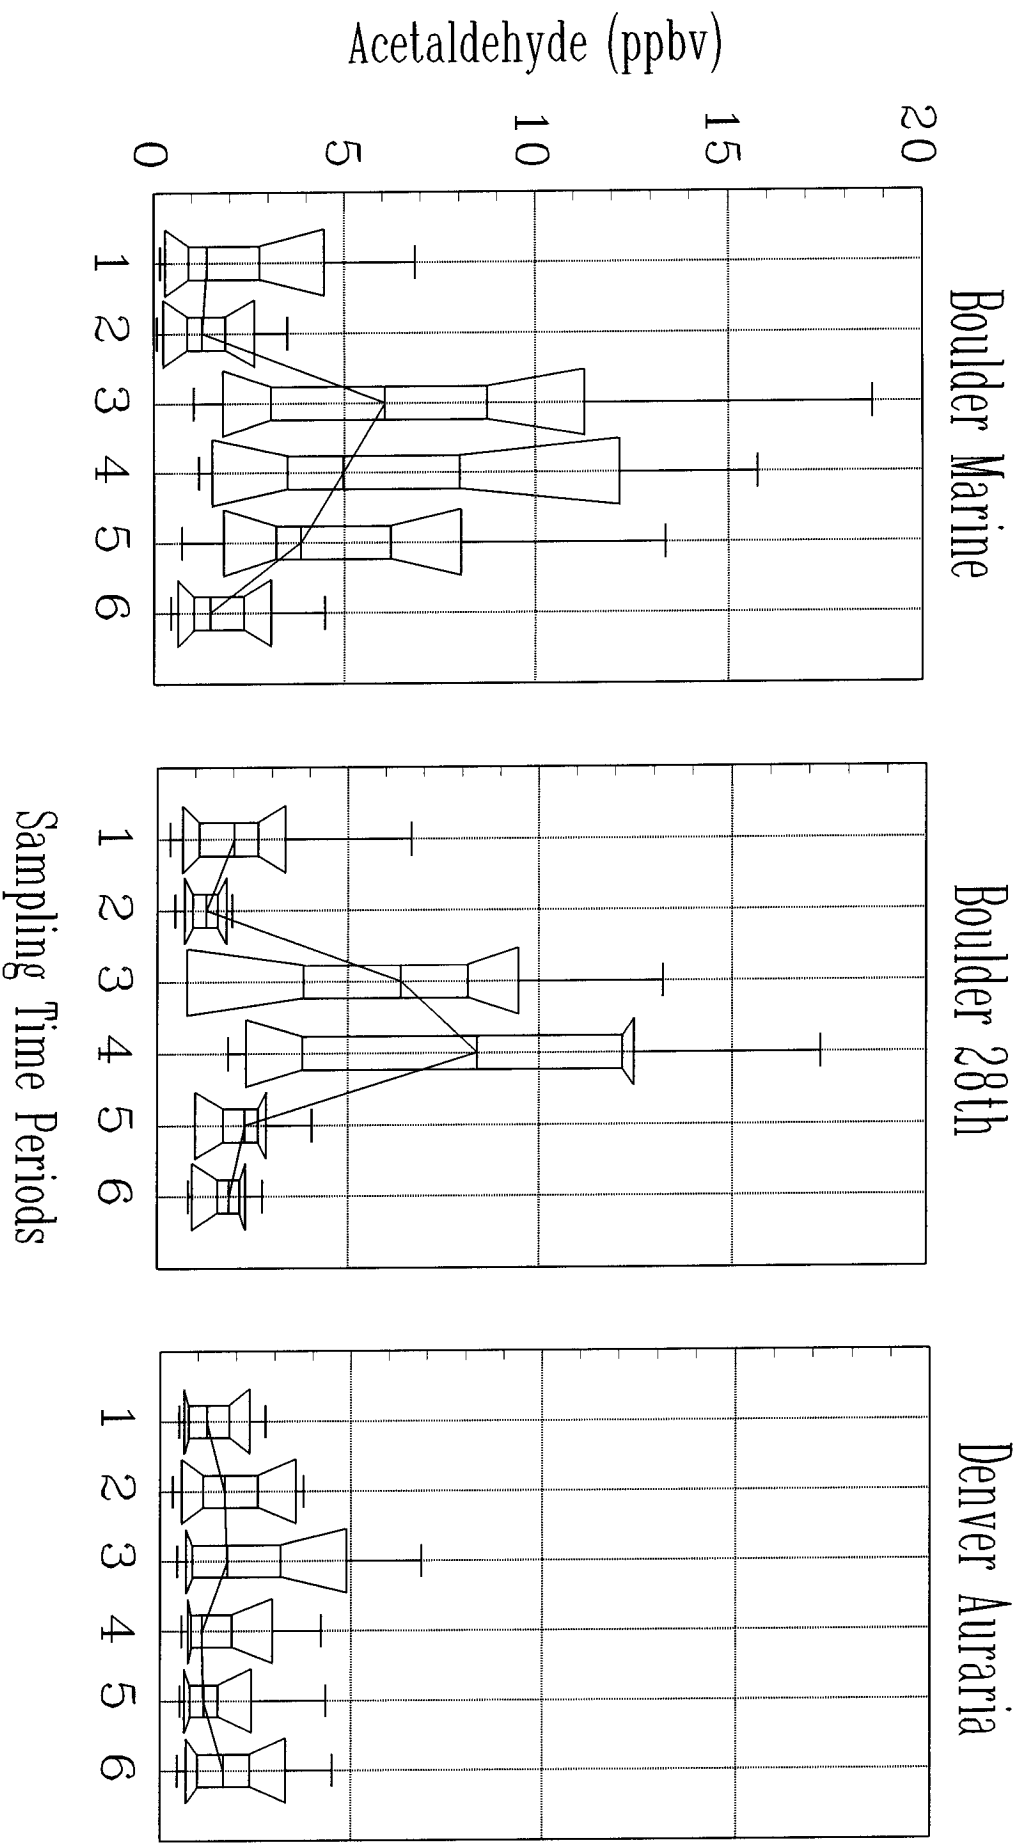

Figure 2. Box plots of the diurnal character of acetaldehyde (ppbv) at Marine, 28th, and Auraria for the February 1996 sampling period. See Results section of text for explanation of box plots.

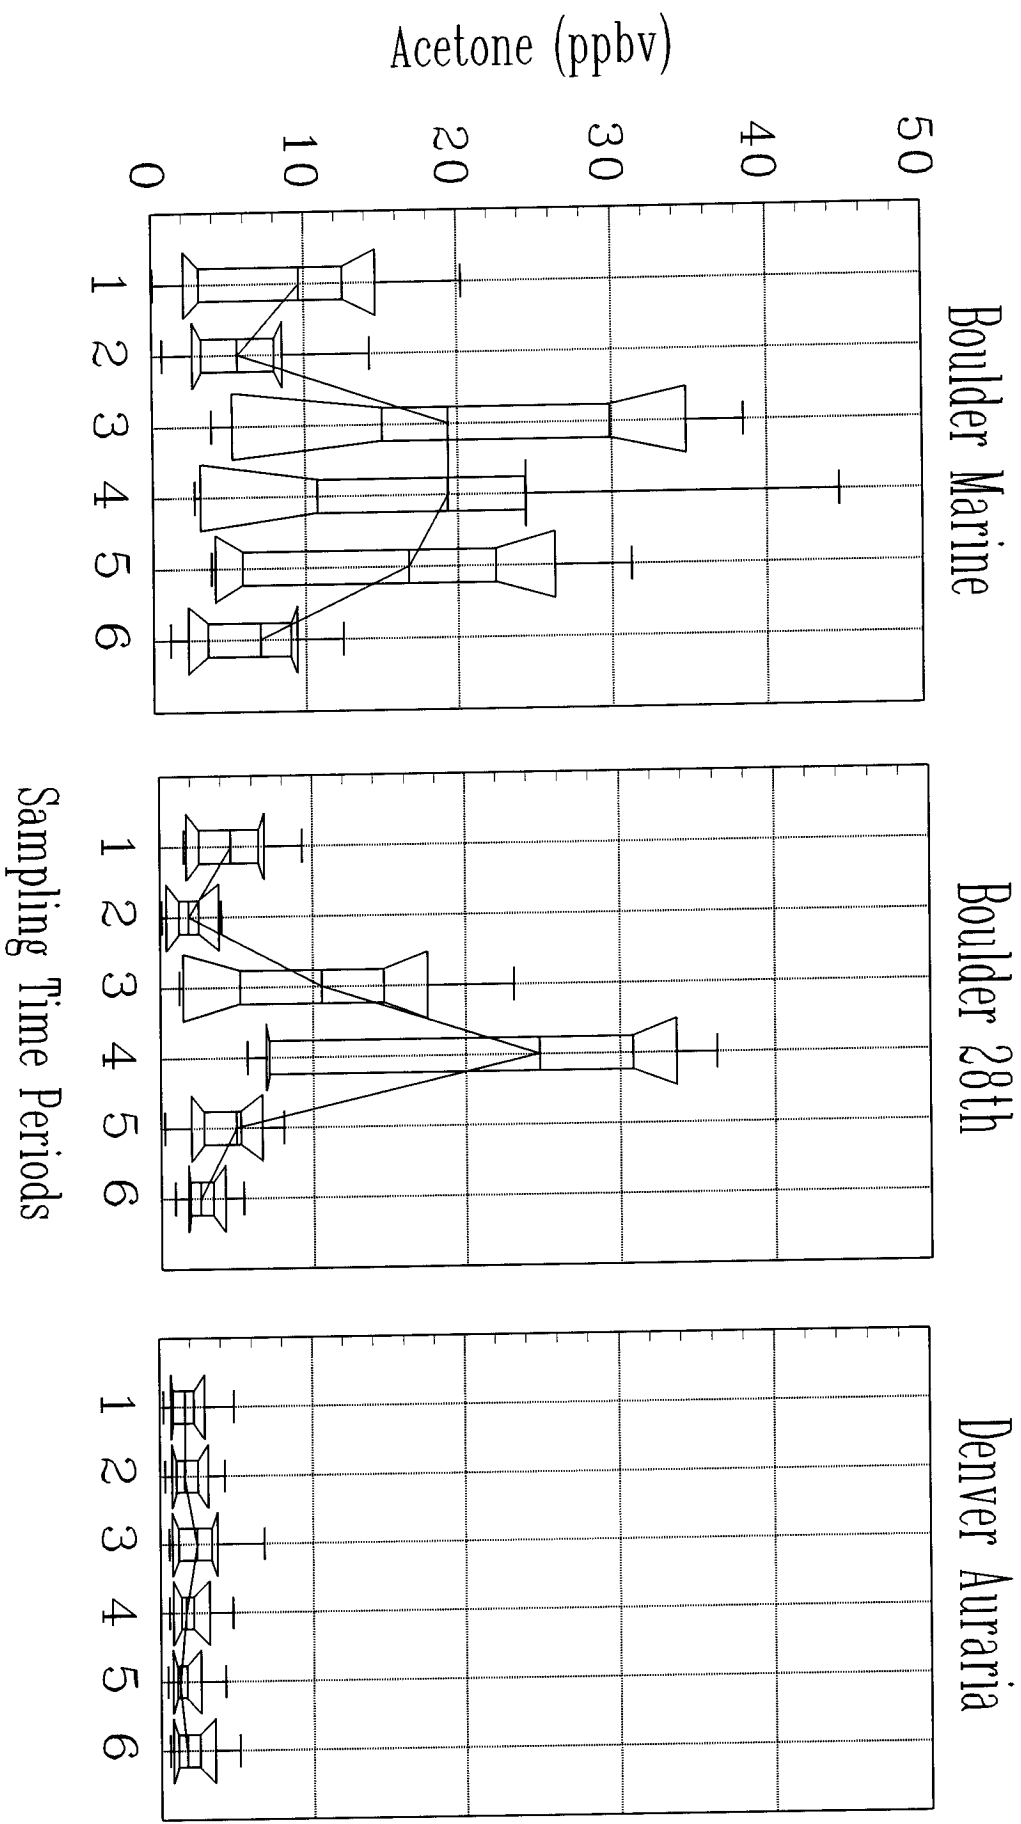

Figure 3. Box plots of the diurnal character of acetone (ppbv) at Marine, 28th, and Auraria for the February 1996 sampling period. See Results section of text for explanation of box plots.

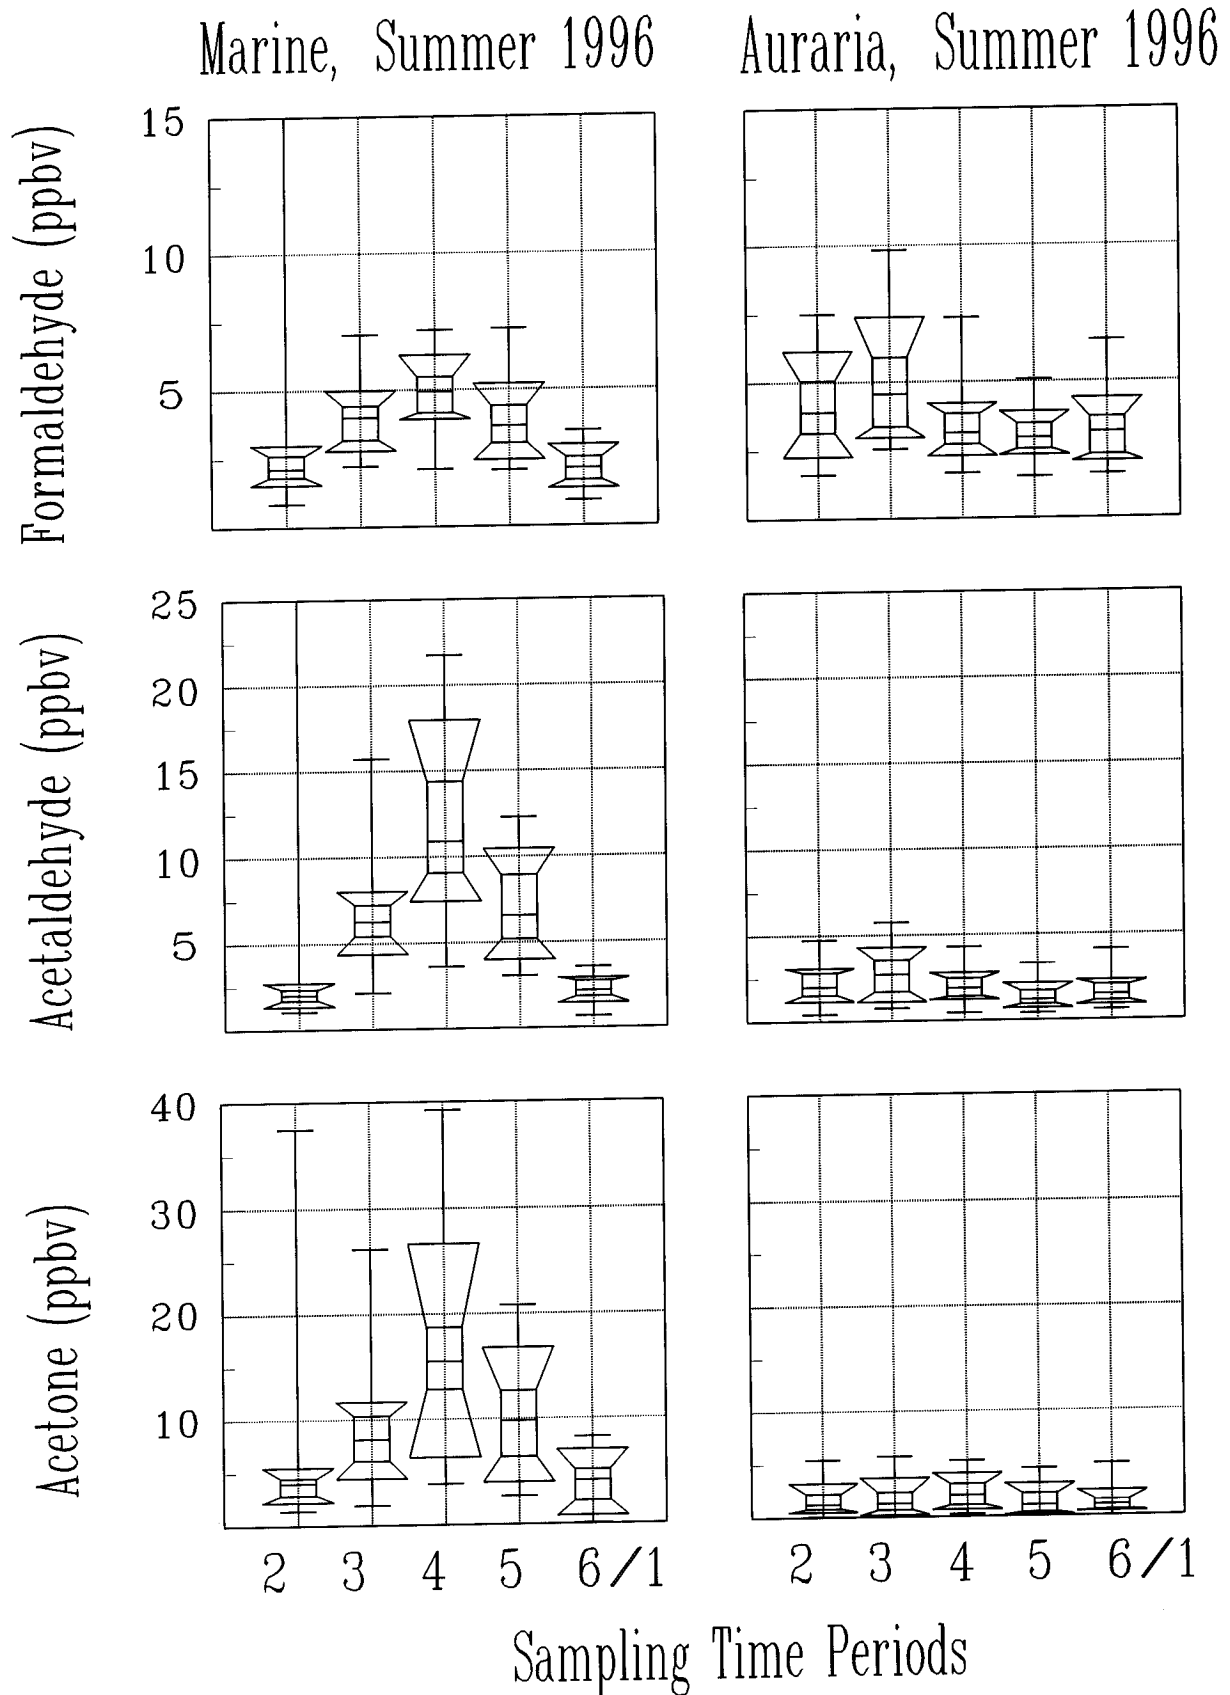

Figure 4. Box plots of the diurnal character of formaldehyde, acetaldehyde, and acetone (all in ppbv) at Marine, and Auraria for the summer (July 12 - Sept 1) 1996 sampling period. Note the differences in the scales for the y axes. See Results (summer 96) section of text for explanation of box plots.
